

THE GLEICHEN CALL

VOLUME 45 NO. 52

Authorized as second class mail.
Post Office Department, Ottawa.

GLEICHEN, ALBERTA, WEDNESDAY MARCH 11, 1953

SUBSCRIPTION \$2.00 PER YEAR

TOWN & District

Mr. and Mrs. Cameron, former residents of Gleichen, are now living near Stettler spent a few days in town a week ago visiting relatives and their numerous friends.

Mrs. Raymond Cunningham is away recovering from the operation she had on her hand recently.

Mr. and Mrs. Ashton Savage and Mr. and Mrs. John Cunningham are preparing to leave for California for a short holiday and visit relatives.

Mr. Geno Califfi and two girls arrived in town last week from Italy and will make their home here. Mr. Califfi is well known in town since he is employed in Leslie Menard's barber shop.

Mr. and Mrs. Erford, Sr., have been quite ill for the past few days suffering from the flu.

OBITUARY

CLIFFORD ADDISON TOWER
Clifford Addison, Tower a resident of Gleichen district for most of his life died in a Calgary hospital at the age of 38 years. He was taken ill recently with a heart ailment and was removed to the H.A.C. and Convalescent Hospital.

He was born in Calgary and had lived on a farm northwest of town and up to the time of his illness had taken an active interest in farm life and many other interests. He was a product of the local school, Chamber of Commerce and a member of the local Masonic Lodge and the Alberta Star Chapter.

Surviving are his wife, Winifred; a son, Donald; a daughter, Mrs. Donald; one sister, Mrs. H. McDougall of Calgary; and a brother, Richard, Gleichen. His father Addison (Pete) died in 1940, and his mother in July 1942.

The funeral took place in Calgary and was attended by a very large number of Gleichen people. Rev. W. Morrison conducted the service and the local Masons took part in the rituals. Burial was made in Queen's Park Cemetery.

WILLIAM HENRY SCHAFER
William Henry Schaffer died on February 26th at the age of 60 years. He was born in Canada in 1910 and had worked at various places in the district and was well known over a wide area.

He is survived by one brother, Charles Schaffer, and a sister, Mrs. H. W. Leonard at Red Deer.

The funeral took place Tuesday afternoon at 2 p.m. with Major A. F. Parkinson of the Salvation Army officiating. The service behind held in the auditorium of the Gleichen High School. A large crowd from Red Deer and a large number of old time friends from all over the district attended the service. Interment was made in Gleichen cemetery. G. W. Evans was in charge of funeral arrangements.

DANIEL McLEOD
Daniel McLeod, a former resident of Gleichen died in Calgary suddenly Saturday morning. He had been found dead in his residence by neighbors.

He was born in Walkerton, Ont., 74 years ago, and came to Gleichen from South Dakota in 1910. Here he operated a small business and with his brother, Murdoch had the first automobile agency in town. He lived here until 1939 when he moved to Calgary.

Mr. McLeod is survived by one son, Clifford of Fort Macleod, two sons, A. Murdoch and Mrs. McLeod, Mather Man; two brothers Murdoch and Glen also of Mather.

Funeral services were held Thursday afternoon at 2 o'clock in the United Church with Rev. W. Morrison officiating. Interment was made in the Gleichen cemetery. G. W. Evans was in charge of funeral arrangements.

FAMILY ALLOWANCE
Family allowance payments were made to more than 4,500,000 children in 1952. The cheques are made out to the mothers and the average amount per child was exactly \$8 per month.

The cost of administration was 1.47 per cent as compared with 1.39 per cent in 1951. There were not so many employees in the department but the salary of the manager was the provision for more office room increased the costs. There was a decrease in overpay-

ments. Every effort is made to recover these overpayments but nothing is quite as unfortunate as to have to insist on people refunding money. A person naturally feels that the money he or she receives is the correct amount and presents being asked for any amount of it back is something like group censure on the part of the officials and indeed it is in some cases.

However, every account is carefully checked by the auditor and by the treasury officials and if the slightest mistake is found someone on the carpet.

Who are overpayments made? Aside from the reason given, they are: Canadian workers for wages.

Children not attending school.

Parents not maintaining the children.

Efforts are made to prevent overpayments but when they are made, collections must be resorted to, however painful they are to both sides.

It is really surprising to note some of the ways the Act is being illegally used. During the last year convictions were issued for the following:

Duplicate accounts, 45 cases.

Fictitious children, 29 cases.

Deceased children, 13 cases.

The fact that there were so few cases speaks well for Canadian morale.

Other problems that cause misery to the officers are broken homes where both parents claim the allowances, changes in the custody of the children and misuse of family allowances.

When a report is received regarding some of the above conditions, the welfare workers in the district are directed to investigate.

During the last year in 4,000 cases of wage awards made in the payee 180 cases an administrator was appointed. In 640 cases the social agency was given control. If anyone has a problem in this regard he should apply to the department of National Welfare, Ottawa, because the taxpayers are distributing the money for a very definite purpose.

F. W. GERSHAW

A ring consisting of Harvey Bopst, Bert Brown, Allen Quennell and Lester Kordell is in Edmonton playing at the碰碰球 at the碰碰球 this week.

Seals, bears, birds and other fowl are well known natural enemies of Canada's Pacific salmon.

The Canadian roster of civil servants federally employed stood at 181,646 last year. Of these 32,689 worked at Ottawa.

Results of Town Election Last Week

Gleichen voters turned out 180 strong to elect two members for town council and one member for the hospital board. This is the greatest number of voters to turn out for municipal elections in many years. The election will be given to the election members for the great turnout of voters. They installed a loud speaker on a car and toured the town urging every body to get out and vote.

With the election over, it was found later that F. Michael and W. Pettit had been elected. The voting resulted as follows:

Frank Michael 118.

Walter Pettit 117.

Elmer Bolinger was elected over Mr. Donovan of Strathmore to the hospital board. In Gleichen Mr. Bolinger received 141 votes while Mr. Donovan received 112 while Mr. Pettit received 100.

Mr. Pettit received a majority. More people in Gleichen turned out to vote than did in Strathmore.

Mr. and Mrs. W. F. Ferguson will celebrate their 50th wedding anniversary on March 30. They will hold open house at their residence from two to five p.m. and from seven to nine p.m.

A horse race is an interesting event to some, but more of your friends and interests in any event are more important. If you go to a visit or friends come to visit you see that the fact reaches this office before publication day.

Major and Mrs. L. Hansen have been Assistant Superintendents at the Evansite Home for the past two and a half years, have been transferred by The Salvation Army to the Corps at Camrose. The Hansens will be greatly missed in Gleichen as they were dear friends in the service.

The Salvation Army has been a great organization. Hansen being the vice-president and the Major a member of the Library Board. Major and Mrs. Hansen and family left Gleichen last week for Camrose, returning by car for their annual vacation. Major and Mrs. Edward Brown who has been superintendent of The Booth Memorial Children's Home in Calgary have been appointed to succeed Major and Mrs. Hansen.

W. Busby has a son that is evidently trying to make some kind of record. This particular he produced an egg that measured eight inches around.

Red Cross Society Appeal For Funds

After nearly two weeks of canvassing in Gleichen and district, Canadian Red Cross Society Campaign Chairman Mrs. R. W. Brown announced that a total of \$270.25 of the \$500 quota had been reached.

There is still time to contribute to the campaign.

"and we feel sure that our quota will be met soon."

Last year, through the efforts of a little known service of the Canadian Red Cross Society, thousands of people in all parts of the world were quite a bit happier. It happened through the efforts of the Canadian Red Cross Society, and re-united with relatives and friends.

The Enquiry Bureau operates the Canadian Red Cross Society and divisions all across Canada and through the international association of Red Cross in 70 nations throughout the world. This bureau performs a lesser known work of mercy of the Canadian Red Cross. It is a service that is revered by thousands of people in Canada and many other nations of the world.

The work of the Enquiry Bureau never ceases and since the war has been more active. The millions of hours of communication from nation to nation in the old world and the new has created added duties.

An idea of the volume of inquiries is shown in a report issued. Last year more than 6,000 letters were received and more than 6,000 were sent out. Added to this, more than 500 trading enquiry forms were sent on to other nations.

In addition to regular obligations in the field of emergency services, it arranges through branches and divisions to operate a travel service. It arranges for someone to meet aged and unaccompanied youngsters at point of arrival and departure, in that country. The work of the Canadian Red Cross Bureau is fascinating and challenging and continues until there is a solution and the case is closed. During the recent disasters in England, Belgium and France, the Canadian Red Cross Bureau was subject to a flood of inquiries as anxious people in all parts of Canada wrote, wired or telephoned for news about loved ones. Within hours all wires were sent out to the British, Belgian and Dutch Red Cross Societies and news—both good and bad—came trickling in.

Whenever and wherever disaster strikes the Enquiry Bureau is an important part of the Red Cross plan.

OUR COMPLETE SHORT STORY

JOHN RACEHORSE

John Was An Indian
So He Kept His Word and
Waited . . .

By FRED CARTER

INDIANS are tall. Not tall in height. I never did figure out why he wouldn't come in. I'd been sheriff of Bonnefont for 10 years and had been out on the reservation after wild Indians quite often. But this was different.

It was just as I thought. John was tall. You know how some of these back country breeds are, sometimes forgetting whose wife belongs to whom. Don't you? I know any woman that's worth a good look. John Racehorse was different. He'd married a young squaw and thought a lot of her. Of course, that didn't

stop him from beating her up when two-timed her for another buck.

It was an old man he shot, a neighbor who tried to butt in and stop him from getting his woman. John didn't think he was going to. So I stayed out.

John was gone, of course, and no one would talk. So I came back to town. Went out two or three times and learned that John was still in town. He'd been shot in the head out old Fort Hall. Like findin' a needle to hunt him down there, so I tried psychology. I found his old man still there. He'd been forced to keep papas unless John gave him up.

Of course it wasn't legal, only an old 'steal' case he was on probation for, but it worked — a little too well . . .

I just sat in my office at the court house a couple of days and then John came in. He'd been shot there a minute, then grunted, "John saw you out. You get 'em. I give him a shot." He was on the south side Ferry Butte, six o'clock tonight. He turned and went out.

That was a quick shot. I know no man or woman is going to get him up?" I agreed he was on the level. Most of the Indians talk straight as a white man, spite of that fool John.

I took a couple of deputies in the court, with long range rifles, and came in from the side so they could keep in range. I was in my belt in line with their guns.

It was almost sunset. You know the sun sets early in the winter, but out there on the wind blow. It was kind of spooky, and every time I heard a rush of wind in the sage I jumped a foot. But I kept on going. A shot was heard.

Of course, by this time, I knew the old man wasn't going to die after all, but I wanted to take him in to give him a good send-off. The Indians pay a lot of attention to family and friends and all that. What the hell, it's for the good of the country.

It took me a long time to get over to the south side of the butte. You never know when you're shootin' at the sun. The sun was settin'. Big Butte, out on the desert, was peakin' up. There was no snow on top of the butte even though it was late November. Seein' all this made me almost forget what I was doin', but not quite. I took a deep breath and went on.

Finally, I saw his pony standin' on the south side of the butte. John . . . I wanted to turn back. He could have shot me in the back, out there without half tryin'.

But a sheriff has to get shot in the vest and in the seat of his pants. Besides, sometimes a bullet will keep 'em from shootin'.

I walked up the hill, half-shootin' at John, half-shootin' at my heart. He'd taken the saddle off his pony and was sittin' on it, dressed up in a beaded suit. I never saw an Indian out on the desert, except at the fair. I couldn't see his gun, because it was still under the sage. And, since he was a tall, thin man and Mac in the car couldn't see John, I'd been afraid if they could even see the pony and I was below a hill from them.

Then I heard his gun, but these wasn't a whistle. I dropped my gun and started to run. I heard him coming after, until I pushed the hat up on my gun barrel, and there was no sound or shot. I peeled out to the side and shot. I heard him coming after me, gun with his face up and one leg forward. I was about to stop when they found the fast current would not allow a firm ice footing.

Then I heard his gun, but these wasn't a whistle. I dropped my gun and started to run. I heard him coming after, until I pushed the hat up on my gun barrel, and there was no sound or shot. I peeled out to the side and shot. I heard him coming after me, gun with his face up and one leg forward. I was about to stop when they found the fast current would not allow a firm ice footing.

Frozen Imjin River Put To Good Use

Frozen Imjin river in Korea provides regulation size outdoor hockey rink for members of Canada's 25th Infantry Brigade. The rink is open to the public and is used for a good skating when they are not in use. The original plan had contemplated a rock wiped out last year by flooding.

Alberta Suffolk Sheep Shipped To England

DRUMHELLER, Alta. — For the first time in the history of the West, a shipment of purebred Suffolk sheep has been sent from Alberta to England.

The ship, after reversing the usual flow of purchased cattle from the United Kingdom to Canada, will re-establish a flock wiped out last year by flooding.

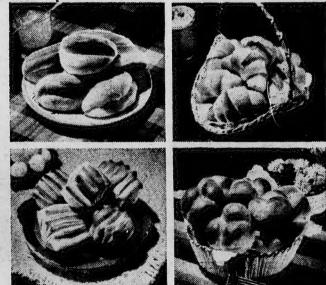

Two rams, five ewes and five shearing rams were sent by P. J. McPherson, of the Alberta Livestock, to H. C. Haywood of Great Bromley, Essex, England, who once shipped the Rock farm one of North America's leading Suffolk breeding places.

The rams were bred by Haywood, who is credited with developing the Rock farm one of North America's leading Suffolk breeding places. One of his offspring, a ram, sold for \$3,350.

LUCH WAS WITH HIM
KING'S LYNN, England. — Sidney Woodhouse, 54, was surveying his ruined cottage on the Norfolk flood plain when he found a small dog and won \$5,000 in a rottweiler pool. "I'll use the money to find another house and help my son get his own furniture," said Woodhouse.

A person's ear is more sensitive to intermissions in sound than the eye to a flicker of light.

**Six Tips On
Cold Weather
Driving**

The following six tips on cold weather driving were issued by the Committee on Winter Driving, Headquarters of the National Safety Council, Chicago. The following tips should be your start on — do them by trying your brakes while driving slowly and away from traffic.

1. Use your speed to read conditions. Slow down on wet, snowy and iced roads so you can stop to avoid accidents.

2. Use tire chains on ice and snow — they cut down braking distances as much as 40 to 50 per cent. Chains are a cure-all for winter accidents, but they will not fit all drivers.

3. Use your windshield and windows clear of ice and snow, fog and frost. Be sure your headlights, windshield wipers and defrosters are in good working order. You have to use them to avoid it.

5. When you have to stop pump your brakes — jamming them all the way to the floor may not stop the car, but it will stop the skid.

6. Follow other vehicles at a safe distance — remember that it takes three to twelve times as long to stop on snow and ice as it does on dry concrete.

An added warning is given to those of you who have your vehicles in

Helpful Hints

Try this trick if you need to iron iron-on transfers. Place the transfers on a flat surface, then iron them on. It's time to let it dampen. Sprinkle it with water and put it into the refrigerator for as long as possible before ironing.

Furs can be made to look better by first washing them with a hair brush and then brushing again with a hair brush.

Hang them in the air until they are dry and then beat lightly on the right side with a rattan. Finally, comb the hair out carefully into a brush.

Don't throw away worn socks. Save them until you have enough for a new dry mop.

For reclosing a fiber rug, one may use any dye such as is used on cotton material. Dissolve it in boiling water and apply on the rug by means of a brush.

Mix a half a cup of sand and four cups of cornstarch, then, through the bristles of the hairbrush and it will make it as clean as new when. Be sure to shake off the mixture thoroughly before using the brush again.

STRANGE CORRECT
SANDRINGHAM, England. — Prince Charles, the Prince of Wales, was heard to be singing strange music at times. Young Prince Charles is reported to play a miniature set of bagpipes he received as a Christmas present.

More than 10 per cent of the population of the world is covered by glacier ice.

1. PARKER HOUSE ROLLS

Roll out one portion of dough on lightly floured board into a 16-inch round. Cut the round into 12 equal pieces and roll each into a 3-inch round.

Shape each piece of dough into a ball. Place each ball on a greased cookie sheet. Green tea leaves are good for this.

2. CLOVER LEAF ROLLS

Cut one portion of dough in equal-sized pieces and roll each into a 3-inch round.

Shape each piece of dough into a ball. Place each ball on a greased cookie sheet.

Soil Conditioners

The group of chemicals called "soil conditioners" has aroused a great deal of interest in the agricultural industry. Since the first "soil conditioner" was marketed in 1951—a large number of "soil conditioners" have appeared on the market.

What Are They? Soil conditioners are complex synthetic chemicals which act chemically to improve the physical properties of the soil, salt and clay soils. This structural-improvement effect is remarkable and has been claimed for the growing season. It is brought about by the chemical action on the individual clay and silt particles, together with the formation of fine crumbs of varying sizes. The conditioners don't work on sand soils, they are not a substitute for fertilizer, nor are they a substitute for manure. Soil conditioners influence plant growth only indirectly, that is, through their influence on the soil in soil structure. It is true, of course, that good structure and soil fertility are important, but "soil conditioners" are not fertilizers.

Specialized Use. The present price of soil conditioners, about one dollar a pound, limits their usefulness in general agriculture. Extensive tests have shown, however, that they can be very useful and useful in the management of horticultural soils—on new lawn surfaces prior to seed sowing, for seedlings and for the improvement of flower beds and for the home garden. The development of soil conditioners is certainly of importance to prairie farmers. These chemicals have a definite place in our agriculture particularly when they become cheap enough for the farmer to use them on his restricted crop field soils to increase crop production.

In The Legislature

BY DONALD F. SMITH

Bingo playing and liquor drinking were scene stealers as the Alberta legislature knuckled down to business last week.

The bingo question was resolved for the present at least when Attorney General Lucien Maynard announced the lifting of the ban on charitable bingo.

What position this puts the legislature in, is not clear. Actually, Canadian Criminal Code classes bingo as an illegal lottery, but it has been occasionally by charities for prizes under \$20 in value. The Attorney General found difficulty in defining the word "occasionally" in relation to bingo and said, "If you don't know what it means, it is hard to enforce it." Others found the code's reference to bingo "outdated."

Before the crackdown last December, bingo winners walked away with cars, refrigerators, washing machines and other items sponsored by service and charitable organizations.

The legislative members could see no harm in bingo for charity. By a vote of 61 to 49 they passed a resolution to the effect that the government should amend the Code to allow bingo, when the major part of proceeds are for charity. The resolution was sponsored by Michael Ponich S.C., Vegreville, and seconded by Mrs. Rose (Winnipeg), S.C., Brandon.

Immediately, the attorney-general announced his department would defer prosecution of bingo playing until the federal government takes action. He did not say if he would do the same if there were no change made by Ottawa.

Premier Manning said amendments to the Liquor Act would be introduced as soon as possible, but there has been no indication as to what they will be. Meanwhile, members of the legislature deluged with letters from wet and drys—with the drys slightly in the lead.

Several government back-benchers have expressed opposition to making bingo legal, while the opposition members shied from direct expression of opinion, preferring to wait until the amendments are known.

To Robert Jorgenson (S.C., Pem-
ma) the problem is the public's responsibility, not the government's. "It is not our right to tell any person to drink or not to drink; the responsibility lies with the person," he asserted.

(The report of the Alberta Legis-
lature)

Board for the year ended March 31, 1952, was tabled in the house, showing that a lot of people were making money. The Alberta government spent \$45,456,603 on alcoholic beverages in the 12 months, giving the Liquor board a \$4,084,633 gross profit. A little computation shows about \$14 spent on hard liquor for every rural resident young and old, while beer consumption cost about \$19 on the same basis.

Early in the week, Liberal Leader J. Harper Prouse lashed out at the government for its financial aid to municipalities and its anti-privatization and criticized its reduction on the bounty on predatory animals, now affected by the rabies outbreak.

He called for a commission to study both the rural and urban areas and rural electrification, stating on the latter question that the government should advance 100 percent of the money required by farmers in interest-free loans.

Ministerial Affairs Minister C. E. Gerhart retaliated by saying that 30 municipalities had actually overspent from \$2,000 to \$10,000 last year, "like drunken sailors." Others, he said, had spent as much as up to \$30,000. His government's goal: "nearly tax-free municipalities."

New members of the legislature

were beginning to make themselves

heard and others were scheduled to speak before the first appearance

of Premier Manning's house Wednesdays or Friday of this week.

LOW 21-DAY EXCURSION FARES TO PACIFIC COAST

on sale to March 31st

"There's more pleasure in a Pacific Coast winter trip when you travel by train. You can travel in comfort and convenience, at advantages of special low fares. Enjoy modern rosettes, compartments, bedrooms, drawing rooms, standard or tourist sections or air-conditioned coaches with individual reclining chairs.

Alberta's Gas Export Policy

In 1928, the Alberta Government set up the Conservation Board to stop the waste of gas in the Turner Valley. In 1949, the Gas Preservation Act was passed, which prohibited waste and to encourage the use of gas by Albertans taking into consideration the future population, growth and industrial development.

Proven gas reserves are easily sufficient to meet the needs of Alberta for 30 years. As each year goes by the 30-year period moves ahead, and no export permit is granted unless there is a surplus. There remains a minimum of 10 years of gas.

Gas in this form is taken from the ground however, is not the gas that is used in Alberta. Only the gas surplus can be exported.

HERE AND THERE

Mrs. C. Kilcup of Portland, Ore., spent several days in town during the past week visiting her son Clifford and family. Mrs. Kilcup is living in Portland for some years and in a

short time will move to California. Mr. and Mrs. Lawrence Woods and of Calgary spent the weekend in town visiting relatives. They are moving Richmond, California, where they will live in future. There Lawrence will follow his trade as a printer. He

spent some years working in the Cali- print shop where he learned the trade.

The entertainment the boys of the Legion staged recently was a rally for good and everybody present enjoyed themselves. The evening started with bingo, then various music and songs. It was strictly a boys' affair, not one woman taking part. After the program was run off supper was served and followed by dancing.

CARD OF THANKS

We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.

Mrs. A. Saine, Mrs. V. Green and the Cunningham Family.

Hot dogs have come to Hannover, Germany, at last. Canadian soldiers stationed at the German base are able to buy the familiar wiener in buns at the British Red Shield Club, operated under the command of the British Royal Engineers. There are two restaurants. Capt. and Mrs. A. R. Hopkins, a couple of Canadian Salvation Army Workers from Winnipeg

who have recently joined the club. After searching Hannover meat shops for winners that tasted "right" for crossing Hannover bakers to produce uniform buns, they put North American hot dogs in the menu. Relish is something that can't be bought in Germany. The Hopkins solved the problem by crushing pickles and adding spices. If the finished product isn't exactly what you get at Saturday ball games troops of the 27th Brigade won't admit it. The hot dogs are going like hot cakes.

The Midget Hockey team played two games with Belview last week, the first in Gleichen and the other at Belview. The Midgets were badly beaten in both games. Nevertheless the boys had the time of their lives visiting a Crow's Nest town.

S.L. and Mrs. A. W. Riddell and son Ricky spent last Sunday with the former's parents Mr. and Mrs. N. A. Riddell.

Sunday and Monday were really warm days and the snow melted rapidly. Last fall all the streets in town were covered with crushed gravel and regardless of the water on

the road ways you could walk across the street with out getting plastered with mud. Also cars could go anywhere without danger of slipping into ditches and getting stuck.

Mrs. E. Walker is at present a patient in the Bassano hospital.

The drive for funds for the flood relief fund in Gleichen by the Red Cross resulted in approximately \$100 being collected for this purpose. The Red Cross officers sincerely thank the donors for their worthwhile contributions. The fund is now closed but contributions may be forwarded through the local bank by anyone wishing to contribute.

A man was tried for murder had been an Ishkhan on the jury to hold out for a verdict of manslaughter. The jury was out a long time and finally returned with a verdict of manslaughter.

"I am obliged to the Indians," whispered the defendant. "Did you have a hard time of it?"

"The devil's own time," said Pat. "The other members of the jury wanted to acquit you."

The regular meeting of the F.W.U.A. was held at the home of Mrs. A. Quenell last Thursday afternoon with 18 members and one visitor present. President Mrs. McKeever opened the meeting and reports were read from Henry Young, president of the F.W.U.A. and news flashes from head office. Mrs. C. Nelson and Mrs. G. McLean were chosen to attend the leiderhosen and hat rally in Okotoks on April 1. A sub-district rally is to be held in Strathmore on March 22nd. The next meeting of the organization will be held at the home of Mrs. D. MacArthur on March 19th.

A Dutch couple living near the Carlsbad bridge have received word that all their relatives on both sides were drowned during the floods in Holland.

Canada's record for rabies is small whereas in the United States the disease kills an average of 30 humans a year and causes an annual \$5,000,000 loss in livestock.

One way or another—from baby bonuses to various types of pensions—two Canadians in every nine are on the federal government's payroll.

The finest grades of paper are made from tree pulp—rags made from vegetable fiber, washed, bleached and then broken down into pulp.

It has been estimated \$5,000,000 acres of clay soils exist in the agricultural areas of Canada.

OBITUARY

ANGUS MCKILLOP

Angus McKillop, a resident at Eventide Home for three years died on March 5th at the age of 83 years. Mr. McKillop was born in Quebec and came to Alberta some forty years ago. He came to Gleichen from lethbridge. For many years he was employed as a mechanic with the International Harvester Company. Surviving is one son who resides in Calgary. The funeral took place Wednesday afternoon at two o'clock with Major A. F. Parkinson of the Salvation Army officiating. Interment was made in Eventide cemetery. The funeral was in charge of G. W. Evans.

ALBERT JAMES PRINER

Albert James Priner, a guest at Eventide Home for the past eight months died on Thursday last week. He was born in Kingston, Ont. and was 81 years of age. For the past 40 years he had farmed in the Taber district. The funeral took place last Friday afternoon at two o'clock with Major A. F. Parkinson of the Salvation Army officiating. Interment was made in Eventide cemetery. G. W. Evans was in charge of funeral arrangements.
